THREDBO CONFERENCE IN ALL SEASONS

In the heart of the Kosciuszko National Park in the NSW Snowy Mountains, Thredbo is a conference destination with a difference. The village is synonymous with fun and adventure and it is the five star great outdoors that makes it a standout. There are mountains to climb, breathtaking views and a variety of activities to enjoy. In winter snow sports are high on the agenda whilst the summer months are full of alpine walks, biking, golf, tennis, horse riding, chairlift rides and the famous Thredbo bobsled.

With the sparkling High Country as the backdrop, the charming Thredbo Alpine Hotel offers a nice mix of dining, rooming and conferencing options. They are all fully supported by a professional, innovative, "can do" conference team who make it easy and make it happen. The Thredbo Alpine Hotel has conferencing facilities catering for up to 250 delegates in all styles. From large gala themed gatherings to intimate board meetings there is a function room to suit your needs.

Thredbo has a big backyard and conference organisers are encouraged to take their business out of the traditional conference rooms and venues and into Thredbo's beautiful natural environment. Team building and recreational activities are Thredbo's speciality and are a great addition to any conference providing a good opportunity for the team to come together and experience something new. The group will learn about leadership, team co-operation and other important work-related skills, all while having fun.

Combine endless outdoor opportunities, amazing mountain views and a village brimming with conveniences and activities and you have Thredbo - the perfect destination to inspire your team.
